REMARKS/ARGUMENTS

In response to the Ex Parte Quayle Action of October 21, 2009, applicant respectfully requests that the Examiner enter the above amendments to correct the Nov. 6, 2006 amendment's misidentifications of the appropriate paragraphs in the original specification to be replaced. The paragraph to be replaced that was identified as [0132] in the Nov. 6, 2006 amendment should have been identified as [0107] in accordance with its numbering in the original January 13, 2004 nonprovisional application filing; while the paragraph to be replaced that was identified as [0133] in the Nov. 6, 2006 amendment should have been identified as [0108] in accordance with its numbering in the original January 13, 2004 nonprovisional application filing and these now correct identifications are so indicated in the above amendment.

It is Applicant's belief that the present amendment addresses and corrects the issues raised by the Ex Parte Quayle Action of October 21, 2009 with no new matter having been added, and the present application is in condition for issuance.

Respectfully submitted,
